

# Tech Tools Catalog

Updated 12/2022

Visit us online at [crccomaha.org](https://www.crccomaha.org)

# INTRODUCTION

Play is an essential component of growing up. As children engage in play, they practice and master specific physical, psycho-social, emotional, and creative skills necessary for understanding and interacting with the world around them. The Tech Tools Lending Library allows children of all abilities to explore the world of play.

The Tech Tools Lending Library is a unique program offered through a collaboration of CRCC and the United Cerebral Palsy of Nebraska. The library consists of sophisticated augmentative technology and devices for special needs children and adolescents. These adapted toys and devices are loaned to children, families, and professionals at no cost.

This catalog is meant to help you find a tool that will specifically help your child/children. In this catalog, you will find a description and picture of each item in the library at CRCC.

The Tech Tools Lending Library, a program of United Cerebral Palsy of Nebraska, is a wonderfully unique resource for individuals with special needs. The library contains adapted toys, assistive technology and other life-skills materials that can be checked out and used to fit each individual's needs. This resource is free and open for community use. Come visit the Tech Tools Lending Library at both CRCC centers.

The library's hours of operation are Monday - Friday, 8:00 a.m. - 4:00 p.m.

For more information or to make an appointment, contact:

# SHOEBOXTASKS®

We have added ShoeboxTasks® to our catalog available to be checked in and out! Do you have a child, client, or student who is beginning their educational journey? ShoeboxTasks® are designed to begin that journey by allowing children to "learn how to learn."

These tasks are great for teachers, therapists, parents, and caregivers who have students or children that may struggle to stay focused or learn. The tasks were made with the children's success in mind! The tasks were made so little verbal direction or support is needed! The materials in each task are easy for children to use, which allows them to complete the tasks! This allows them to feel motivated and accomplished!

ShoeboxTasks® are structured activities designed to help meet the educational and developmental needs of children who need extra support!

Each task has their own set of materials as well as instructions. If you would like more information, here is the link to their website which should be able to further assist you; <https://www.shoebboxtasks.com/> .

## #2163 - Illuminated Gel Board

Pads light up with the slightest touch. Provides both visual and tactile experiences. Multicolored stars move when you press the pad. Soft and squishy pads light up when you touch them

## #835 - Lighted Mirror

When you pick up the mirror the lights turn on. This encourages the child to visually attend to him/herself and increases bi-lateral hand usage.

## #1784 - Mini Dome

The Mini Dome has eye-catching colors and vibrations. Press anywhere on the dome or its plate, and the bright confetti spins, music plays and the dome vibrates. Now comes with on/off switch and volume control. Provides visual, auditory and tactile stimulation.

## #1885 - Mini Lighted Fan

Beat the heat with this blade-less fan. When activated by a switch, the fan turns on and lights up.

## #1684 - Lady Buzz

Kids calm down quickly with a mini massage! Lady Buzz Pet Massager provides localized vibration to help calm and focus. Stimulating and fun, and a great fidget toy too!

## #1967 - LED Fan

Stay cool and be entertained with this extraordinary adapted fan that's also a light show!

## #1961 - The Galaxy

The Galaxy projects thousands of stars and nebula formations and includes a Bluetooth speaker, remote control and timer.

## #1963 - Infinity Mirror

This unique sensory toy creates the optical illusion of a never-ending tunnel of light that provides infinite amounts of enjoyment.

## #1936 - Therapeutic Manipulator

The two wiggle people and goofy cartoon sounds play music. Rotate the worm and set off a potpourri of lights, music and vibration in the dome. If you move the knob to the left or right, the user will hear more cartoon sounds. Pushing the green button plays a tune.

## #1621 - Sensory Star Light

Place your fingers on the star's surface and watch as the tendrils of light follow your touch.

## #940 - Busy Box Maze

Use the wobble of the box to move the ball throughout the maze. At certain points, the ball will trigger music.

## #1965- Twinkles to Go Octo

This adapted illuminator reflects an enchanting, yet calming pattern of stars and fish in blue or green that's perfect for your sensory room.

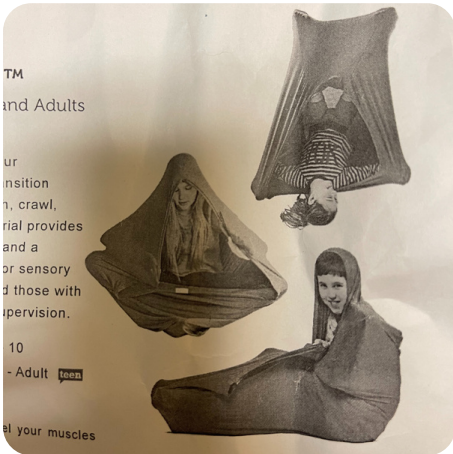

## #1968- Twister Light

Create a whirlwind of color and curiosity with this color changing vortex lamp when you press and hold your switch.

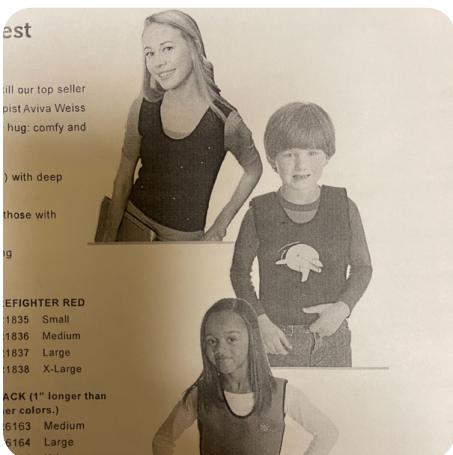

## #1966 - Entangle Dome

With The Entangle Dome you're sure to shine! This toy provides a sensory light experience in the dark!

## #5873 - Sensory Sack

The smooth, stretchy material provides the deep pressure that sensory-seeking kids crave. Helps kids learn to self-regulate and transition from hyper to calm, from sad to happy, from distracted to alert.

## #1812 - Weighted Vest

The steady proprioceptive input and compression around the trunk are especially soothing for those with sensory challenges. With stretchy neoprene for a snug, comfy fit, kids even ask to wear it.

## #2177 - Under the Sea

This brightly colored water toy will delight and amaze any child. One capability switch turns on a stream of water that swirls around a colorful pond. Push a second switch and music plays while lights glow. A fun toy for individual or group environments.

## #2173 - All That Glitters

Even gentle pressure on one of the activity center's corners rewards you with sensory delight. Enjoy dazzling vibration, lights, music, glitter and flying beads! This dynamic experience invigorates your auditory, visual and tactile senses.

## #2212 - Carnival Tube

Watch and listen as a rainbow of multi-colored beads and lights cascade through the tube. Great for encouraging reaching, swiping and grasping. Can also be used as a switch. It has a toggle switch that allows you to turn on or off any of the rewards.

## #2213 - Topsy Turvy

A visual, auditory and tactile celebration, this incomparable toy sends colorful beads cascading through its clear, rotating tube while multi-colored lights blink and six rocking tunes play when you activate the switch

## #1962 - Spinning Light Show

Activate with a switch and behold stunning, multicolored light designs!

## #1929 - Vibrating Light with Music

This button is easy to find and activate because of its large surface area and texture. Press the orange button and you will be rewarded with lights and vibration!

## #1970 - Jellyfish Soother

What could be more calming than a glowing jellyfish playing soothing ocean sounds and gentle music? It cycles through the colors of the rainbow while playing a 4-minute peaceful melody!

## #1769 - Light & Music Pod

Activate your switch and relax to your favorite calming sound while watching the stars projected on your ceiling. Sounds include birds, brooks, rainforest, ocean waves, and rain which help to develop listening skills.

## #1750 - Spinning Symphony

Spinning Symphony is a fantastic way to enhance musical interest and engage in active exploration. At the touch of the switch, the user can add or subtract any of five different instruments.

## #2197 - Twinkle Twinkle

Each of the four brightly colored built-in adapted switches make a different sound in one level and plays a part of a familiar tune in the other. Press each button in sequence to hear “Twinkle, Twinkle Little Star”.

## #2207 - Little Rock Star

Built with three easy-touch switches playing different styles of music and sound effects, three play modes and five light-up buttons, children will channel their inner musicians.

## #2216 - Ring Around Bells

The Ring Around Bells musical toy gives people with many types of abilities the chance to make music! Activate this switch-adapted toy to make the precision-tuned bells twirl and play music while it blinks LED lights.

## #822 - Drum

Activate an external switch and watch its drumstick twirl, creating a rapid succession of rhythmic beats.

## #2168 - Baby Monkey Drum

Drum up some fun with this interactive toy that teaches about animals, animal sounds, and colors while enjoying 70+ drum sounds, songs, melodies, and phrases.

## #1859 - Laugh & Learn Train

Laugh & Learn ABC Train helps children learn their ABC's. Activate your capability switch to hear the ABC's and music.

## #1613- Push & See Giraffe

Reach for and push down the giraffe's tail to watch the spinning kaleidoscope patterns or spin the giraffe's head for a clacking sound.

## #1899 - Minnie Mouse Cheerleader

Cheering Minnie loves Mickey and loves to cheer. She waves her Pom Poms high in the sky and dances while she sings. She is adapted to use any of our special needs assistive technology switches.

## #2172 - ABC Elmo

Join in with Elmo as he sings the alphabet song. Just activate your capability switch and Elmo sings and also says 14 fun phrases. A great way to introduce letters and to teach cause and effect. Elmo comes with his own stand.

## #1941 - Thomas the Train

We've created a large two-button infrared remote control to make it easy to activate Thomas the Train. One button moves him forward, the other backward. Great for teaching cause and effect and directionality.

## #1930 - Rabbit

Watch them walk, talk and make animal sounds. Great for teaching cause and effect skills. Capability switch required with all these items.

## #1166 - Laughing Puppy

The Chuckle Buddy Dog is a fluffy stuffed laughing animal that loves to play! The ultimate rolling laughing dog.

## #1165 - Laughing Kitty

The Chuckle Buddy Cat is a fluffy stuffed laughing animal that loves to play! The ultimate rolling laughing cat.

## #773 - Lucky Ducks

This game is great for toddlers and up. Use the magnetic fishing rod to catch moving ducklings (10). See how many you can collect. This is a great game for two people.

## #1435 - Form Board

Work on fine motor skills by placing shapes in their designated space.

## #1192 - Large Timer

This device lets children visually see how much time is left during a specific time period (indicated by a shrinking red block). Use this tool for teaching the concept of time.

## #1436 - Mini Timer

This device lets children visually see how much time is left during a specific time period (indicated by a shrinking red block). Use this tool for teaching the concept of time.

## #1710 - Musical Butterfly

Plays 18 different songs! Just hit your switch and the multi-colored blinking lights dance around the Butterfly while music plays. Great for visual tracking.

## #1903 - Leap Pad

My First LeapPad is a portable learning system with a built-in storybook and magic pen. Kids use the pen to touch the book and interact with the stories. Interactive games help them explore the alphabet and more!

## Learning Lamp

This switch-adapted lamp plays more than a dozen songs, tunes and phrases, teaching users to count, identify shapes, colors and more. Volume control and two modes—learning and music.

## #1708 - Butterfly Spinner

Teaching cause and effect is easy with this cheerful and visually appealing toy.

## #2205 - Musical Llama

Stack this toy's three colorful rings or press on the llama's head or switch to make lights dance and music play! This cute little llama plays more than 25 songs.

## #2202 - Fish & Glow Spinner

Just press your switch to hear lively music, see swirling colors and watch three little goldfish spin around in their bowl. Also encourages visual attention and listening skills.

## #2206 - Elliot the Elephant

Activate your capability switch and Elliot will sing and sway along to the song “Do Your Ears Hang Low” while his ears flap up and down. Everyone will want to join in singing the song with Elliot

## #2203 - Fun Mickey

Mickey sings the “Hot Dog” song and four fun phrases when you activate your switch. Mickey’s T-shirt graphic lights up. Comes with a stand for easy play.

## #2215 - Shelly Seahorse

Soothing to the senses! Activate your capability switch and Shelly Seahorse plays uplifting calypso music while her belly glows with ever-changing colors.

## #758 - Fire Engine

A connected capability switch (not included) activates the bump n' go action, flashing lights, and siren while the firefighter moves up and down the ladder.

## #1651 - Tic Tac Toe

An adapted version of the classic toy! Get “tic tac toe” by activating a switch that lights up LED squares in a horizontal, vertical or diagonal direction.

## #1329 - Large Puzzle

Fit the pieces together with this large motor puzzle.

## #834 - Sit Scooter

Race your friends! This is a great device for adolescents. This is a very large scooter. It has handles on either side to aid in balance. Great for either outdoors or indoors.

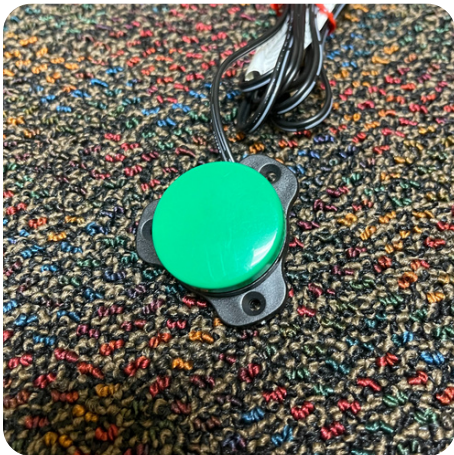

## #849 - Balance Board

This is a great device for older children. See if you can center your balance on this small circle accessory on the bottom. This is quite the physical challenge! (26" diameter)

## #1450 - Mini Switch

The mini switch is versatile and durable. It has a 1¼ inch activation surface. This switch is small enough to be easily mounted anywhere.

## #1452 - Mini Switch

The mini switch is versatile and durable. It has a 1¼ inch activation surface. This switch is small enough to be easily mounted anywhere.

## #1446 - Small Switch

The mini switch is versatile and durable. It has a 2-inch activation surface. This switch is small enough to be easily mounted anywhere.

## #1916 - Pancake Switch

Easy activation! We've added a 3/8" low rim to make it even easier to activate. Just touch the sensitive outside rim or anywhere on the top surface and you can activate any toy or device.

## #361 - Vertical Plate Switch

Ergonomically designed to respond to even the gentlest touch, this plate switch will give users the power to control toys and devices independently.

## #1201 - Plate Switch

Designed to deliver exceptional sensory input, this switch will trigger their favorite toys when touched.

## #883 - Koosh Switch

Everyone will love our unique Koosh Switch! Lights up and vibrates when activated!

## #1672 - Koosh Switch

Everyone will love our unique Koosh Switch! Lights up and plays music when activated!

## #1804 - Squeeze Switch

Provides a wonderful tactile experience. Just connect any of the switches to a device and activate it by giving a gentle squeeze. Each switch can help the user work on a specific skill.

## #863 - Big Mac Switch

Jumbo Switches have large surface areas that are perfect for people with limited target ability.

## #928 - Wobble Switch

Wobble Switch mounted vertically on a base and secured with four rubber suction cups.

## #1964 - Switch & Glow

A switch with a little bit extra! The unique stretchy texture gives children a sensory experience and the light adds to it!

## #867 - Multi Switch

This switch is great for teaching colors. Each colored button can be connected to a different switch-adapted device. Instruct the child what color to press and the toy connected will be activated!

## #1758 - Touch Switch

Activate a toy with the gentlest touch with this switch.

## #2180 - Big Mac Switch

Jumbo Switches have large surface areas that are perfect for people with limited target ability.

## #1969 - Bright Red Switch

Its large target area and bright red color make this a great choice for those who are visually impaired. Simple to operate, this versatile switch lights up and vibrates when pressed, and will also activate an adapted toy or device.

## #1778 - Tactile Talker

Communicate with textures! Our tactile communicator is a wonderful place for the VI user to start communication. Our unique communicator has adjustable activation time (1-12 seconds) so you can feel the plates for the set time without activating the message.

## Big Mac Talker

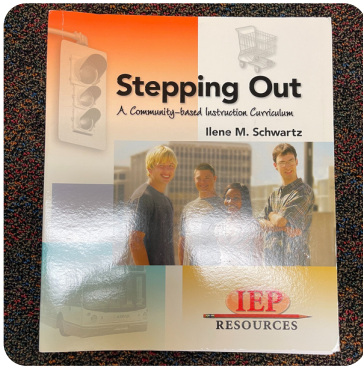

It is easy to record speech, music, or any sound. Record a repeated phrase from a story or song for a user to playback. Ideal as a simple introduction to communication devices. Record up to 2 minutes of playback.

## #1782 - Vertical Talker

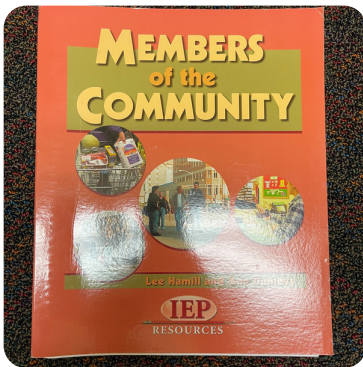

Includes four levels and over 300 seconds of recording time. Sequential capability for storytelling and random capability for games or cards. This switch can be activated by an external switch or be output for activating other devices.

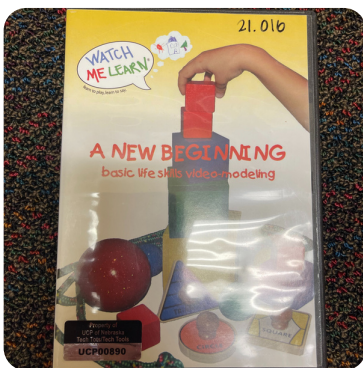

## #20.141 - Stepping Out

Includes teaching materials from a variety of topics such as "Planning your Day", "Keeping House", "Select-a-Meal", "Looking Good", "Stepping Out" and "Shopping Smart".

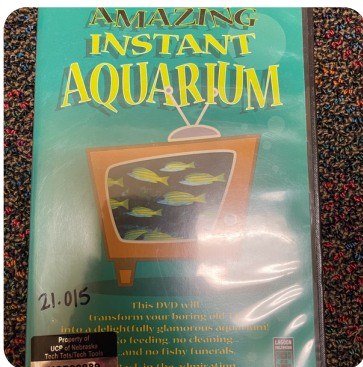

## #20.142 - Community Member

Learn valuable skills about being a member of the community.

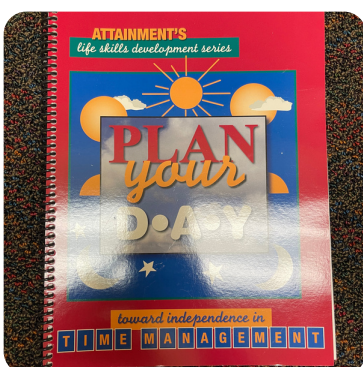

## #21.016 - A New Beginning

Learn valuable life skills in this DVD.

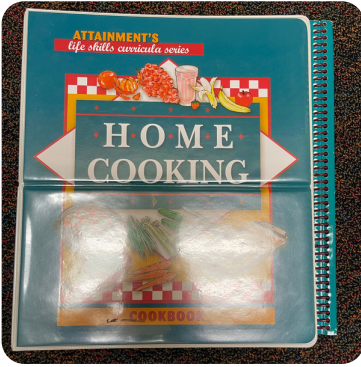

## #889 - Instant Aquarium

Explore marine life in this DVD.

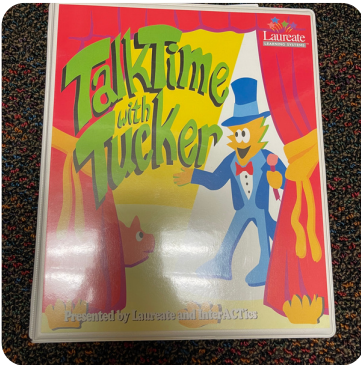

## #20.141 - Plan Your Day

Help teach how to plan a day using this curriculum.

## #20.142 - Home Cooking

Full of delicious recipes to teach cooking skills.

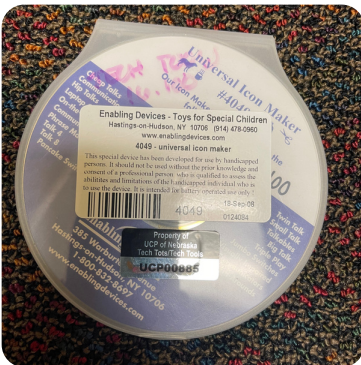

## #884 - Talk Time

Talking is a curriculum for speech skills.

## #886 - Icon Maker

This is a great icon maker and can create sheets for many devices including cheap talks, Talk 4, Talk 8, Twin Talk, Small Talk, Jumbo Switches and much more! Simply choose what pictures you would like.

## #885 - Icon Maker

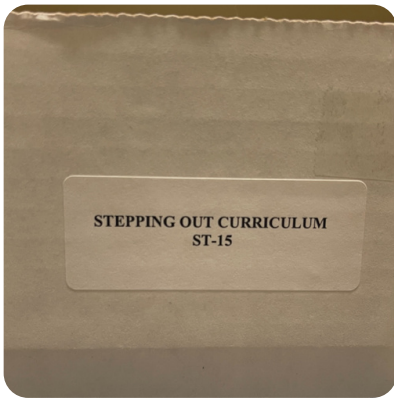

This is a great icon maker and can create sheets for many devices including cheap talks, Talk 4, Talk 8, Twin Talk, Small Talk, Jumbo Switches and much more! Simply choose what pictures you would like.

## #887F - Shopping Smart

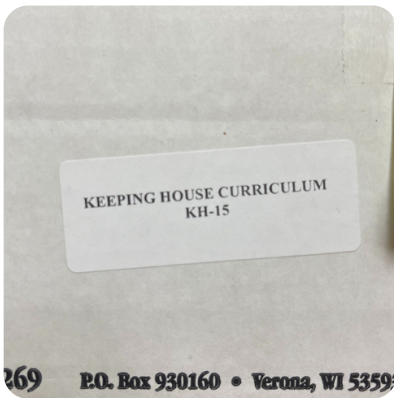

Includes teaching materials from a variety of topics such as "Planning your Day", "Keeping House", "Select-a-Meal", "Looking Good", "Stepping Out" and "Shopping Smart".

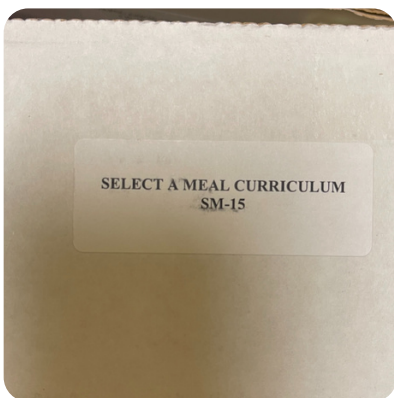

## #887E - Stepping Out

Includes teaching materials from a variety of topics such as "Planning your Day", "Keeping House", "Select-a-Meal", "Looking Good", "Stepping Out" and "Shopping Smart".

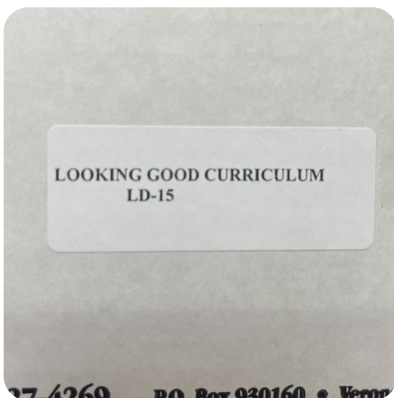

## #887B - Keeping House

Includes teaching materials from a variety of topics such as "Planning your Day", "Keeping House", "Select-a-Meal", "Looking Good", "Stepping Out" and "Shopping Smart".

## #887C - Select A Meal

Includes teaching materials from a variety of topics such as "Planning your Day", "Keeping House", "Select-a-Meal", "Looking Good", "Stepping Out" and "Shopping Smart".

## #887D - Looking Good

Includes teaching materials from a variety of topics such as "Planning your Day", "Keeping House", "Select-a-Meal", "Looking Good", "Stepping Out" and "Shopping Smart".

## **SW #1 - Blocks with Velcro**

Move blocks from the Velcro strip into nearby container. By design, the student is encouraged to take one block at a time.

## **SW #2 - Blocks with Containers**

Move blocks from open container to lidded container. The lid with the cross slit requires the student to apply greater pressure to be successful.

## **SW #3 - Wooden Nickels**

Move wood nickels from upright positions and place into lidded container.

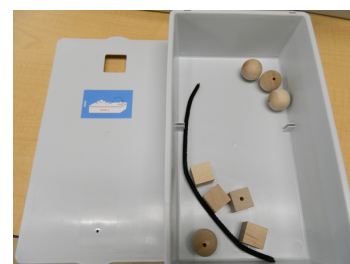

## **SW #4 - Pegs**

Move pegs from upright positions and place into lidded container. The smaller opening requires greater focus to be successful.

## **SW #5 - Clothespins**

Move clothespins from the edge of the lid and place through the small opening. Seeing the clothespins disappear into the opening can be a great motivator.

## **SW #6 - Beads with Pipe Cleaner**

Take beads off pipe cleaner and place into opening. Finger dexterity and the coordinated use of two hands are encouraged by design.

## **SW #7 - Dowels**

Move dowels from container and place into small nearby openings. One-to-one correspondence requires greater focus.

## **SW #8 - Pegs and Vials**

Move pegs from container and place into nearby vials; one-to-one correspondence.

## **SW #9 - Spools**

Pull paired spools apart and put into nearby opening.

## **SW #10 - Locktags**

Pull paired Locktags apart and put into nearby opening.

## **SW #11 - Clothespins with Cards**

Separate clothespins from plastic cards and place into appropriate openings; a self-correcting activity.

## **SW #12 - Stack It**

Stack Blox upon the one that is preset by teacher onto the shoebox lid.

## **SW #13 - Cups**

Stack cups upon one that is preset by teacher onto the shoebox lid.

## **SW #14 - Beads with Dowel**

Take beads from open container and stack onto upright dowel.

## **SW #15 - Stacking Pegs**

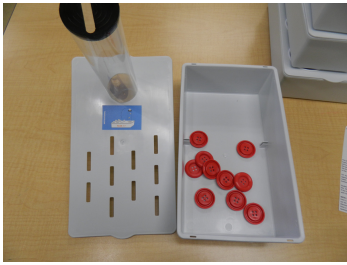

Take pegs from open container and stack onto those preset by teacher on the shoebox lid; a simple stack or up to a three-way, color sort and stack.

## **SW #16 - Sorting**

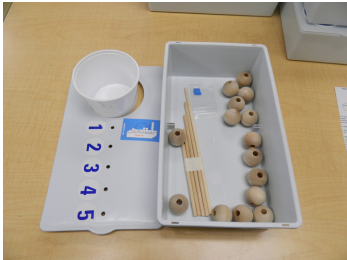

Take wood nickels and balls from open container and sort into one of two nearby containers, matching each object. With success, two additional objects can be added.

## **SW #17 - Red Buttons into Water**

An all-time favorite, the action of the buttons in the water has captivated many individuals. A proven motivator and door-opener to learning.

## **SW #18 - Bead Stack 1-5**

A one-unit stacking task that visually demonstrates the concept of counting from one to five.

## **SW #19 - Dox Blox**

The individual matches a given order of colored blox, assembles the pieces, and puts them in the finished area.

## **SW #20 - Letter, Shape, Number, Color Match**

This one-unit matching task encourages independence while practicing academic readiness skills

## **SW #21 - Bead Slide**

An opportunity for the student to cross the midline and slide beads into the finished opening.

## **SW #22 - Lacing**

The student laces through a series of eye bolts following a designated path that ends at the red (finished) opening.

## **SW #23 - Match, Assemble, and Packaging**

A multi-step activity: matching objects to pictures, assembly and packaging.

## **SW #24 - Pipettes**

Through the action of squeezing and drawing colored water into the transparent pipette, students fill containers affixed to the lid or create works of art using an absorbent napkin.

## **SW #25 - Flex Tube**

Visual and auditory effects created by dropping a ball into a transparent, flexible tube motivate students to complete the activity

## **SW #26 - Color Match Sequence**

Nine different colored coins are used in groups of three for matching or sequencing patterns.

## **SW #27 - Drum Roll**

Watching one of the ten balls funneling its way down into the opening becomes a captivating, motivational activity.

## **SW #28 - PomPom**

An activity that builds hand strength by encouraging the student to move pom-poms with a tong from one container to another.

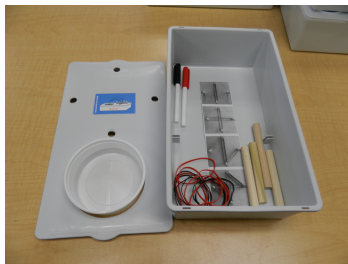

## **SW #29 - Closure**

Students put oversized pompoms into containers before screwing down the cap for closure.

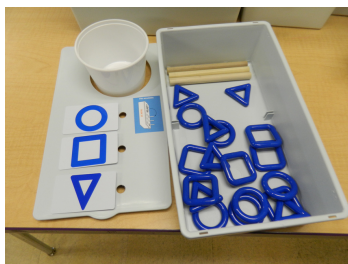

## **SW #30 - Bead Patterns**

Coordinating the use of two hands, the student strings beads on either a pipecleaner or shoelace, following a prescribed pattern.

## **SW #31 - Stretch**

Using two hands, the student stretches colored loops between dowels creating various patterns.

## **SW #32 - Shape- Up**

The student places up to three geometric shapes over the dowel matching the corresponding shape or picture.

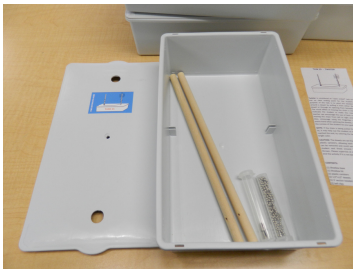

## **SW #33 - Around the Block**

Match colors on a six-sided block to a template velcroed to the lid, encouraging fine motor control.

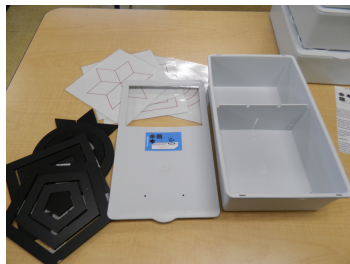

## **SW #34 - Positive Attraction**

The student uses a wand to move magnetic washers through plastic tubes, placing them onto a wooden dowel. The curious behavior of magnets encourages concentration and fine motor control.

## **SW #35 - Twister**

Encourages fine and gross motor development, eye-hand coordination and opportunities to engage the midline by winding a link-chain around dowels in a variety of ways.

## **SW #36 - Bullseye**

The student removes puzzle pieces from the open side and matches them to a jig on top of the lid.

## **SW #37 - Variations**

Challenges rigid behaviors by providing the opportunity to see singular objects in a variety of ways. The student is given three variables for each object.

## **SW Folder Tasks**

This set of (4) folder tasks contains familiar images, numbers, colors and a do-it-yourself for customization. Periodically assess the individual's ability to use them during one-on-one sessions. Once mastered, add the folder tasks as part of the independent structured work session.

## **SW Sound Cylinders**

Match five cylinder pairs by sound alone.

## **SW Mystery Bag**

Match eight pairs of different wooden objects by reaching into the bag, without looking, to find the matching object by feel.

## #1426 - Dinosaur

T-Rex with high-quality detail realistic growling sound, walking and overall movement.

## #2186 - Pony

Our adorable painted pony will put a smile on everyone's face. Just activate your capability switch and Rusty trots to the lively theme song from The Lone Ranger. Great for teaching cause and effect and for developing tracking.

## #2171 - ABC Elmo

Join in with Elmo as he sings the alphabet song. Just activate your capability switch and Elmo sings and also says 14 fun phrases. A great way to introduce letters and to teach cause and effect. Elmo comes with his own stand.

## #2183 - Cheering Minnie

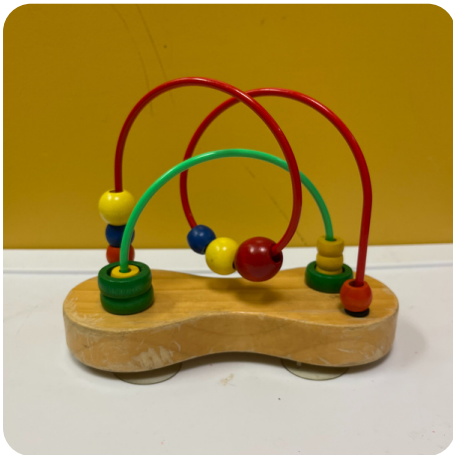

Cheering Minnie loves Mickey and loves to cheer. She waves her Pom Poms high in the sky and dances while she sings. She is adapted to use any of our special needs assistive technology switches.

## #1734 - Dora the Explorer

This switch activated Dora pumps her arms and sways side to side to the beat! The doll includes four modes of play.

## #936 - Desktop Toy

Attach this toy to a table top or tray and play with the beads.

## #1960 - Tactivity Center

This multipurpose toy provides exercise, therapy and amusement for those with limited mobility.

## #1544/1901 - RC Robot (2)

Spinning lights and robots sounds! Activate the capability switches or the buttons on the remote control and watch the happy Robot spin and go forward. He has working lights and makes cool sounds

## #764 - UNO Spin

! Deal seven cards to each player. When a spin card is played someone must spin the wheel. There are 3 colored posts in the spinning wheel to make it easier to spin. A special cardholder can hold 3 rows of cards.

## #775 - Head Full of Numbers

Math and fun rolled into one! This is a great game to play with the family or large group of individuals. Roll the dice and then try to come up with as many equations as possible. Then the players come up with as many equations as they can by using the given numbers.

## #776 - Racin' Mickey

This is a great tool for those who love Mickey Mouse. Simply attach a switch to this device, activate the switch and watch Mickey travel around the racetrack.

## #761 - Grab-It!

The Grab-it toy is easy to control the claw in order to grab the prizes. This tool has special controls: large yellow and red plates with arrows. Grab-it features a timed arcade audio soundtrack that lets you know when your time is up.

## #2187 - Fubbles

! Fun motorized Bubble Machine that blows tons of bubbles. Simply pour bubbles in the front of the machine, activate your capability switch and the fun begins! The moving wands blow hundreds of continuous bubbles.

## #1722 - Bubbles with Dora

Everyone loves blowing bubbles. Use any of our special needs switches to activate Dora and have tons of fun with all of the bubbles!

## #1891 - Shape Sorter

All the benefits of the round containerizing toy but more blocks and more places for sorting, stacking and dropping! All sides of the square have shape-sorting walls.

## #2169 - Baby Monkey Drum

Drum up some fun with this interactive toy that teaches about animals, animal sounds, and colors while enjoying 70+ drum sounds, songs, melodies, and phrases.

## #1893 - Space Projector

Young astronomers can explore early space science by beaming images of space onto any surface for a close-up view of stars, planets, and more! Just place the discs into the projector slot for quick and easy viewing.

## #763 - Hungry Hungry Hippo

A classic family game of quickness! Start with your food in the start slot and release the food for the hippos! Activate the hippo to capture food and whoever obtains the most, wins!

## #1193/1362 - Large Timer

This device lets children visually see how much time is left during a specific time period (indicated by a shrinking red block). Use this tool for teaching the concept of time.

## #1437 - Musical Stacker

Stack this toy's colorful rings to make lights dance and music play!

## #2201 - Racing Around

Race car lovers will be captivated watching these three colorful cars on springs, bounce and spin while music and race car sounds play.

## #2211 - Flying in the Clouds

Fasten your seatbelt, activate your switch and watch as the miniature jet plane inside this toy's clear, covered dome flies under the clouds, accompanied by the sounds of music and jet engines.

## #2204 - Smooth Moves Sloth

Lights, sounds and songs play while Smooth Move's head moves side by side. Just activate your capability switches to get the fun started. 85 songs and phrases help introduce counting and colors.

## #2208 - Wilbur

Adorable switch-adapted Wilbur sings "Head, Shoulders, Knees and Toes" while touching his toes! Head-To-Toe Wilbur promotes exercise and interaction while teaching parts of the body. His soft plush covering and bright pink color make him an inviting workout buddy.

## #874 - Joke Master

Press on your switch and listen to the jokes this toy has in his back pocket.

## #1749 - Push 'n See Monkey

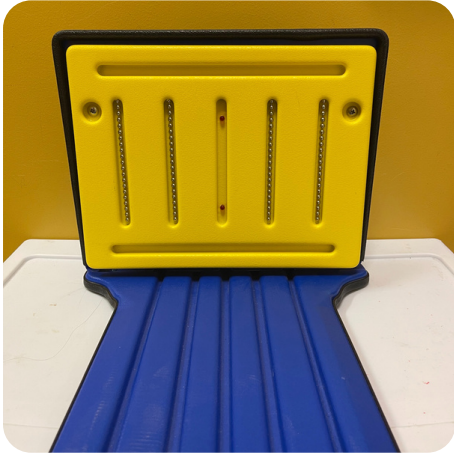

Activate your capability switch to hear fun sounds and tunes. Reach for and push down the monkey's tail to watch the spinning kaleidoscope patterns or spin the monkey's head for a clacking sound.

## #1191 - Giggling Gorilla

Play with the Gorilla by pressing the musical note on the mirror or activating your capability switch. He will talk to you and sing three different children's songs while you discover yourself in the mirror and explore wonderful textures.

## #803 - Side Layer Toy

This item provides multi-sensory stimulation as it provides both visual and tactile stimulation. This device will encourage arm movement; great for immobile children. The brightly colored plate activates light and vibration.

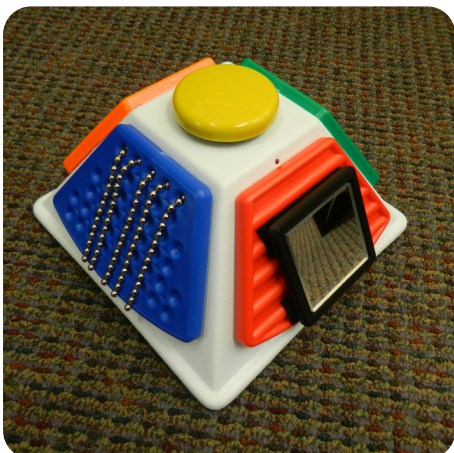

## #2167 - Flip Flop

Our colorful Flip Flop is terrific to use for increasing visual attention and providing tactile stimulation. With a simple spin of the domes, you will feel vibration, see lights flashing, glitter and beads spinning inside.

## #1618 - Explor-a-Center

This busy box provides eight activities that turn on multi-colored blinking lights, mechanical music, vibration and many different sounds including children's laughter, water splashing, and circus music.

## #1957 - Desktop Busy Box

This compact-size busy box will provide hours of fun and multisensory stimulation. Spin the cube and discover diverse tactile experiences.

## #1880 - Fan Switch w Lights

This is a great tool to teach cause and effect. Press the textured, yellow switch and the fan will be activated and plays music! This is a great device on a warm day.

## #1791/1777 - Lighted Mirror

When you pick up the mirror the lights turn on while the unit vibrates. This encourages the child to visually attend to him/herself and increases bi-lateral hand usage. The level of vibration is adjustable.

## #2188 - Wave Projector

This 12 light LED projector cycles between red, blue, green and multi-colored hues transforming your sensory room into a peaceful oasis.

## #2185 - Light Ball

Liven up your sensory space with these mesmerizing balls of color.

## #1868 - Mini Lighted Fan

Beat the heat with this blade-less fan. When activated by a switch, the fan turns on and lights up.

## #1861 - Compact Activity Center

This small-scale activity center is designed to provide sensory stimulation and cognitive activity. Great for the user whose physical mobility may be limited due to positioning needs.

## #1794/1415 - Textured Tunes

With stimulating textures and bold, vibrant colors, the interchangeable balls on our Textured Tunes are perfect for hands-on sensory exploration. We've added bead chains, multi-colored blinking lights, six upbeat tunes, and vibration.

## #841 - Sensory Balls

This item provides children with a great somatosensory experience offering balls of different sizes and textures. From soft and gushy to hard and spiky, this is certainly a diverse bag of "tricks".

## #1958- Fiber Optic Sensory Light

Glowing strands of fiber optic lights set a calming mood for a sensory space or any room you choose.

## #797 - Kaleidome Game

This fun toy enhances matching, grasping, and releasing skills. As the child fits a shape on the base, a light is activated. When all twelve shapes are in place the large center dome lights up, music plays and pom-poms dance.

## #771 - Tic Tac Toe

This Tic-Tac-Toe game is made easy with its large buttons. This item has built-in capability buttons. Take turns pressing X or O with a partner and try to get three-in-a-row!

## #2176 - Activity Center

Just spin this wonderful busy box and go on an adventure of textures, sights and sounds. Six different activation plates that operate independently encourage parallel play for two or more children.

## #1869 - Alphabet Bingo

Enjoy a game that teaches the alphabet! This twist on classic Bingo helps kids learn and practice letter names and sounds. Reach into the bag and pull out a letter token—if you have a match, you're on your way to a bingo!

## #1952 - Musical Pillow

We've switch adapted the sound machine in this vibrating pillow. The sound machine has four sound choices: music, water, white noise and a heartbeat. Simply remove the sound machine from the interior of the pillow, select a sound choice and attach your switch

## #1776 - Vibrating Pillow

The pillow springs into action when activated by an external capability switch. The soothing vibration is great for stimulating tactile awareness and for relieving stress.

## #1688 - Texture Roller

Our innovative textured rollers provide hours of sensory awareness. Rollers can be easily changed with the slip-in slip-out pin. When you give it a spin you can watch your hand in the mirror on the base and be rewarded with multi-colored blinking lights, music and vibration.

## #7124 - Blue Putty

Helps with hand strengthening, fine motor coordination, stress reduction and sensory integration. Each putty also comes with putty pieces, in order to encourage play.

## #7111 - Red Putty

Helps with hand strengthening, fine motor coordination, stress reduction and sensory integration. Each putty also comes with putty pieces, in order to encourage play.

## #5873 - Sensory Sack

The smooth, stretchy material provides the deep pressure that sensory-seeking kids crave. Helps kids learn to self-regulate and transition from hyper to calm, from sad to happy, from distracted to alert.

## #1183/1182 - Sensory Tube

Lights, Vibrations & Music! Instant rewards! Perfect for developing grasping skills, localizing sound and teaching cause and effect. Simply pick up the tube, hold it in a vertical position and it instantly rewards you with glowing lights and soothing vibrations.

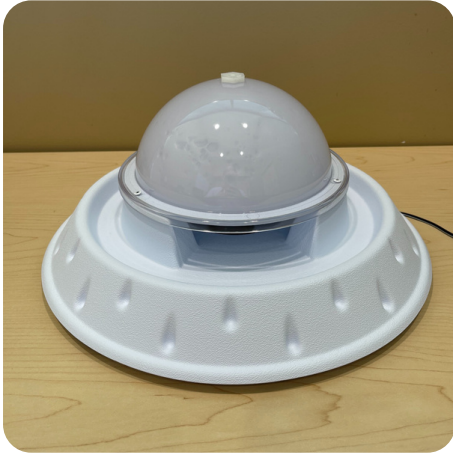

## #851 - Magic String

Use this easy-to-hold sensory toy to calm your senses. Flip the switch to "string" or "string and black light" and watch as the colors of the string change!

## #2199 - Disco Ball

Soft colored lights swirl around the room with this spinning disco ball. Red, green, blue, orange, yellow and pink orbs will gently light your sensory space. Great for visual tracking and increasing visual attention, this device comes with an AC power cord.

## #2210 - Aqua Dome

This unique device uses water, lights and music to create a soothing, multisensory experience. To operate, add water then activate your switch and observe a soft rainbow of changing lights glimmering through gently flowing water.

## #2217 - Pea Pod

Provide a cocoon-like feel providing calm and deep pressure. Durable yet comfortable, they are made of inflatable heavy-gauge vinyl and covered with a soft, velvety surface

## #2209 - Tornado Lamp

Create a whirlwind of color and curiosity with this color changing vortex lamp when you press and hold your switch.

## #2214 - LED Fan

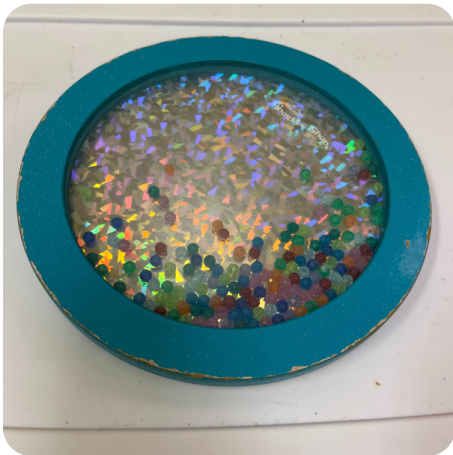

Stay cool and be entertained with this extraordinary adapted fan that's also a light show! With just the push of the button, the fan's LED lights create more than 30 different color patterns

## #1754 - Music Box

Play four lively tunes! Plug your switches into this bright box and hear unique melodies while lights flash. Each switch plays a different tune.

## #1408 - Glitter Tambourine

Its Sparkle Shape is like an ocean drum and sound shape in one! Use the mallet to make the colorful beads inside rattle as you play, or swirl the beads inside to create an ocean sound.

## #811 - Boombox

This portable AM/FM and cassette player has great sound. Just attach a capability switch and enjoy the music of your choice.

## #1873 - Bamboo Windchimes

Move your hand across these chimes and hear the gentle sound of bamboo chimes while multicolored lights twinkle and soft music and the sound of waves play. Music plays for 20 seconds after activation.

## #2175 - Nursery Rhyme Caterpillar

Come and learn your favorite nursery rhymes with our brightly colored textured friend. Activate each of the tactile switches and listen to the pre-recorded nursery rhymes while bright multi-colored lights twinkle along.

## #2200 - Old MacDonald

Each of the four brightly colored built-in adapted switches make a different sound in one level and plays a part of a familiar tune in the other. Press each button in sequence to hear "Old MacDonald".

## #6811 - Ball Pit and Balls

Enjoy the soft play environment of our Air-Lite Ball Pit for sensory integration, motor planning activities and touch therapy. Hop in and roll, crawl, balance and burrow in this large sensory ball pit alone or with friends.

## Puzzles

We have a large selection of puzzles to choose from. Many have large wooden knobs for easy grasping. Check them out from the NW library.

## #1804 - Squeeze Switch Kit

Our Squeeze Switch Kit has three different textures and shapes: textured roller, spoke ball and turtle. Each provides a wonderful tactile experience. Just connect any of the switches to a device and activate it by giving a gentle squeeze.

## #1200 - Multiple Button Switch

Four of our most popular button click switches have been mounted on a special tray using Velcro. Great for use with devices that require four switches.

## #2195 - Wobble Switch

Wobble Switch mounted vertically on a base and secured with four rubber suction cups.

## #1914 - Thumb Switch

Capitalizes on thumb mobility! Grip the yellow cylindrical base in your hand and press the red button with your thumb for momentary switch operation.

## #1737 - Textured Ball Switch

## #1959 - Talkable 2

This communication device allows you to communicate using two phrases at a time! It is easy to record, easy to press, and it has an adjustable volume!

## **NW #1 - Blocks with Velcro**

Move blocks from the Velcro strip into nearby container. By design, the student is encouraged to take one block at a time.

## **NW #2 - Blocks with Containers**

Move blocks from open container to lidded container. The lid with the cross slit requires the student to apply greater pressure to be successful.

## **NW #3 - Wooden Nickels**

Move wood nickels from upright positions and place into lidded container.

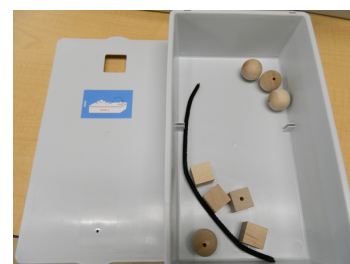

## **NW #4 - Pegs**

Move pegs from upright positions and place into lidded container. The smaller opening requires greater focus to be successful.

## **NW #5 - Clothespins**

Move clothespins from the edge of the lid and place through the small opening. Seeing the clothespins disappear into the opening can be a great motivator.

## **NW #6 - Beads with Pipe Cleaner**

Take beads off pipe cleaner and place into opening. Finger dexterity and the coordinated use of two hands are encouraged by design.

## **NW #7 - Dowels**

Move dowels from container and place into small nearby openings. One-to-one correspondence requires greater focus.

## **NW #8 - Pegs and Vials**

Move pegs from container and place into nearby vials; one-to-one correspondence.

## **NW #9 - Spools**

Pull paired spools apart and put into nearby opening.

## **NW #10 - Locktagons**

Pull paired Locktagons apart and put into nearby opening.

## **NW #11 - Clothespins with Cards**

Separate clothespins from plastic cards and place into appropriate openings; a self-correcting activity.

## **NW #12 - Stack It**

Stack Blox upon the one that is preset by teacher onto the shoebox lid.

### **NW #13 - Cups**

Stack cups upon one that is preset by teacher onto the shoebox lid.

### **NW #14 - Beads with Dowel**

Take beads from open container and stack onto upright dowel.

### **NW #15 - Stacking Pegs**

Take pegs from open container and stack onto those preset by teacher on the shoebox lid; a simple stack or up to a three-way, color sort and stack.

### **NW #16 - Sorting**

Take wood nickels and balls from open container and sort into one of two nearby containers, matching each object. With success, two additional objects can be added.
